Logan County Water Pollution Control District Job Posting

GIS/DATA TECHNICIAN

The Logan County Water Pollution Control District is accepting applications for a GIS/Data Technician.

The GIS/Data Technician is responsible for performing a multitude of tasks regarding the development, maintenance and use of the District's GIS databases, Asset Management databases and the incorporation of data from other software systems. In addition, this position will perform field work that includes locating District assets for OUPS, inspecting public and private work performed on the sanitary sewer system and developing and maintaining digital records.

Due to the technical nature of this position and the varied responsibilities the District will provide training and additional education for the selected candidate that demonstrates an exceptional work ethic and is highly motivated but may lack relevant experience.

Annual salary for this position is \$45,000 to \$62,000 DOQ

Applications will be accepted until 4:00 pm Friday, October 5, 2018. Logan County is an Equal Opportunity Employer. Any questions regarding the position may be made to the Logan County WPC District office at 937-843-3328. Applications and job descriptions are available on the District's website: www.logancowpc.com and in the District office. Mail or email **completed** applications and resumes to:

Brian Schultz, Director
Logan County WPC District
