

PUBLIC NOTIFICATION OF INTENT TO FILE AN APPLICATION

The Logan County Water Pollution Control District hereby gives notice of its intent to file an application for financial assistance with the U.S. Department of Agriculture, Rural Development for an I&I Reduction Project. This notice is published in accordance with Rural Development regulations contained in RUS Instruction 1780.19(a) and as required by the National Historic Preservation Act. The proposed project includes the purchase of I&I Reduction equipment; construction of the Belle Center Bypass/Relief force main; rehabilitation of the Island View pump station and a number of improvements at the wastewater treatment plant

A copy of the pre-application to USDA Rural Development is available for review at the following locations:
